

To Whom It May Concern:

Casper Swart Electrical Solutions has been providing electrical reticulation services to **GEA Africa (PTY) Ltd.** on our Ammonia Refrigeration projects since 2011, due to their professional work and efficient service. They always approach each project with a positive attitude, no job is ever too big or too small, and they are always on call if, and when we require assistance.

They have met and exceeded their contract requirements for the following project:

Project: Bakhresa Foods, Tanzania

Project description: Electrical reticulation for an Ammonia refrigerated chilled water plant

Project value: R 60k

Date of completion: July 2015

It is clear and evident that **Casper Swart Electrical Solutions** takes pride, ownership and responsibility in their installations. Further, they have proven that they can meet any construction challenge and achieve a successful outcome through a methodical approach and philosophy that demands success.

Yours Sincerely,

André van der Merwe
GEA Africa (PTY) Ltd.
